

Align ChoiceElite (PPO) Align ChoicePlus (PPO) 2024 Formulary List of Covered Drugs

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN

For the most current list of covered medications or if you have questions, call our Pharmacy Management Team at (844) 642-9090.

Formulary ID# 00024063,V6

This formulary was updated on 08/01/2023.

• **Important Message About What You Pay for Vaccines:**

Our plan covers most Part D vaccines at no cost to you, even if you haven't paid your deductible. Call Member Services for more information.

• **Important Message About What You Pay for Insulin:**

You won't pay more than \$35 for a one-month supply of each insulin product covered by our plan, no matter what cost-sharing tier it's on, even if you haven't paid your deductible.

For more recent information or other questions, please contact Align ChoiceElite (PPO) and Align ChoicePlus (PPO) member services at (844) 642-9090 (TTY users should call 711), 24 hours a day/7 days a week or visit align.sanfordhealthplan.com.

We also provide information in alternative formats such as braille, audio or large print. To receive information in an alternative format, please call our member service department at (844) 642-9090 (TTY: 711), 24 hours a day/7 days a week.

Visit align.sanfordhealthplan.com and select Pharmacy Coverage to:

- Locate a participating retail pharmacy by ZIP code
- Look up possible lower-cost medication alternatives
- Compare medication pricing and options

Understanding your formulary

What is the Align ChoiceElite (PPO) and Align ChoicePlus (PPO) formulary?

A formulary is a list of covered drugs selected by the plan in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. The plan will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a plan network pharmacy and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

For a complete listing of all prescription drugs covered by the plan, please visit our website align.sanfordhealthplan.com or call member services at (844) 642-9090 (TTY: 711), 24 hours a day/7 days a week. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

When this drug list (formulary) refers to “we,” “us”, or “our,” it means Sanford Health Plan.

When it refers to “plan” or “our plan,” it means Align ChoiceElite (PPO) and Align ChoicePlus (PPO).

This document includes a list of the drugs (formulary) for our plan which is current as of 01/01/2024. For an updated formulary, please contact us. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network and/or copayments/coinsurance may change on Jan. 1, 2024, and from time to time during the year.

Understanding your formulary

Can the Formulary (drug list) change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers or add new restrictions. We must follow the Medicare rules in making these changes.

Changes that can affect you this year: In the following cases, you will be affected by coverage changes during the year.

New generic drugs. We may immediately remove a brand name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the Align ChoiceElite (PPO) and Align ChoicePlus (PPO) formulary?”

Drugs removed from the market. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug's manufacturer removes the drug from the market, we will immediately remove the drug from our formulary and provide notice to members who take the drug.

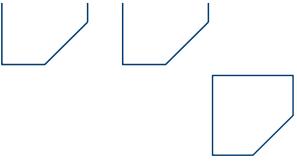

Other changes. We may make other changes that affect members currently taking a drug. For instance, we may add a new generic drug to replace a brand name drug currently on the formulary; or add new restrictions to the brand name drug, move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, or add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective, or at the time the member requests a refill of the drug, at which time the member will receive a 31-day supply of the drug.

Understanding your formulary

If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand name drug for you. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Align ChoiceElite (PPO) and Align ChoicePlus (PPO) formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

The enclosed formulary is current as of 1/1/2024. To get updated information about the drugs covered by the plan, please contact us. Our contact information appears on the front and back cover pages. The monthly formulary updates will be posted on our website including the date it was updated.

Understanding your formulary

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 11. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category Calcium Channel Blocking Agents. If you know what your drug is used for, look for the category name in the list that begins on page 11. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page 69. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information.

Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

The plan covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs cost less than brand name drugs.

Reading your formulary

The formulary gives you choices so you and your provider can decide your best course of treatment. In this formulary, brand-name medications are shown in UPPERCASE (for example, CLOBEX) and generic medications in lowercase (for example, clobetasol).

Tier information

Tiers are different cost levels you pay for a medication. This is how much you will pay when you fill a prescription. Using lower tier or preferred medications can help you pay your lowest out-of-pocket cost. Consult your Summary of Benefits to determine your cost for each of the tiers listed below.

Drug Tier	Includes	Helpful Tips
Tier 1	\$ Lower cost preferred generic	Use Tier 1 drugs for the lowest out-of-pocket costs.
Tier 2	\$\$ Mid-range cost generic	Use Tier 2 drugs instead of Tier 3 to help reduce your out-of-pocket costs.
Tier 3	\$\$\$ High cost non-preferred generic Preferred brand Select Insulin Drugs *After Deductible is Met	Many Tier 3 drugs have lower-cost options in Tiers 1 or 2. Ask your provider if they could work for you.
Tier 4	\$\$\$\$ Higher cost non-preferred brand *After Deductible is Met	Preferred specialty medications typically require more information from you or your provider to determine coverage.
Tier 5	\$\$\$\$\$ Highest cost specialty *After Deductible is Met	Non-preferred specialty medications typically require more information from you or your provider to determine coverage. Lower cost options may be available.
Tier 6	\$0 copay *After Deductible is Met	Generic medications used to treat targeted conditions like diabetes, high blood pressure, high cholesterol and osteoporosis.

Additional Formulary Information

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact member services and ask if your drug is covered. For more information, please contact us. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

If you learn that the plan does not cover your drug, you have two options:

You can ask member services for a list of similar drugs that are covered by the plan. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by the plan.

You can ask the plan to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the Align ChoiceElite (PPO) and Align ChoicePlus (PPO) Formulary?

You can ask the plan to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.

You can ask us to cover a formulary drug at a lower cost-sharing level. If approved, this would lower the amount you must pay for your drug.

You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs, the plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, the plan will only approve your request for an exception if the alternative drugs included on the plan's formulary and the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask us for an initial coverage decision for a formulary, tier or utilization restriction exception.

Additional Formulary Information

When you request a formulary, tier or utilization restriction exception, you should submit a statement from your prescriber or physician supporting your request. Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary or you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days that you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 90-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 31-day supply of medication. After your first 90-day supply, we will not pay for these drugs, even if you have been a member of the plan for less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

For more detailed information about your plan's prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about the plan, please contact us. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

Drug Coverage

Drug coverage

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

Align ChoiceElite (PPO) and Align ChoicePlus (PPO) Formulary The formulary below that begins on the next page provides coverage information about the drugs covered by the plan. If you have trouble finding your drug in the list, turn to the index that begins on page 69. The first column of the chart lists the drug name.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

Prior Authorization: The plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval from the plan before you fill your prescriptions. If you don't get approval, the plan may not cover the drug.

Quantity Limits: For certain drugs, the plan limits the amount of the drug that the plan will cover. For example, the plan provides 60 capsules per prescription for celecoxib. This may be in addition to a standard one-month or three-month supply.

Step Therapy: In some cases, the plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, the plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, the plan will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 11. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online a document that explains our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information can be found on the front and back pages, along with the date we last updated the formulary.

You can ask the plan to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the plan's formulary?" on page 7 for information about how to request an exception.

Drug List Information

Drug list information

In this drug list, some medications are noted with letters next to them to help you see which ones may have coverage requirements or limits. Your benefit plan determines how these medications may be covered for you.

NDS	Non-Extended Day Supply — This prescription drug is not available for an extended days' supply.
PA	Prior Authorization — You or your provider must get pre-approval for the medicine with OptumRx before you can get the prescription filled. NOTE: While the member is ultimately responsible for obtaining prior approval from OptumRx, we are here to help you or your provider through this process.
QL	Quantity Limit/Amount Allowed — Medication may be limited to a certain quantity.
B/D	This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.
ST	Step Therapy — Trial of a lower-cost medication(s) is required before a higher-cost medication can be covered.
PA NSO	Prior Authorization New Starts Only — A prior authorization is only required when a new medication is to be started.
ST NSO	Step Therapy New Starts Only — Step therapy is only required when a new medication is to be started.

You can find information on what the symbols and abbreviations on this table mean by going to the beginning of this table.

This formulary was updated on 8/01/2023. For more recent information or other questions, please contact member services at (844) 642-9090 (TTY users should call 711), 24 hours a day/7 days a week, or visit align.sanfordhealthplan.com. The formulary, pharmacy network and/or provider network may change at any time. January 2024
